## 10-6-1 LAND USE MATRIX

Uses designated in the land use matrix, as City Staff (CS), Planning Commission (PC), and City Council (CC) are conditional uses that require special consideration by the land use authority. The purpose of this chapter is to allow the most appropriate level of land use authority to evaluate the reasonable conditions to mitigate potential negative effects of the proposed use on a case by case situation. The conditional use permit process allows the City Staff (CS), the Planning Commission (PC), or City Council, (CC) to approve, conditionally approve, or deny requests for a conditional use permit. All permits shall begin with the City Staff (CS), and progress to the level listed below before the permit is issued. If a use is Permitted (P) within a certain zone no approval is needed from the City to carry out that use excluding potential building inspection or health department approvals etc. Uses which are not specifically permitted within a zone are prohibited.

Uses	Zone Districts
