Carbon Monoxide Safety

Know the facts to prevent carbon monoxide poisoning

Know the Common Causes

The majority of carbon monoxide cases occur due to fuel-burning appliances that are improperly vented or being used incorrectly.

Know the Symptoms

Depending on the length of exposure and concentration of CO, symptoms can range from a mild headache to death.

Know Who Is At Risk

Men, women and children of all ages can be poisoned by carbon monoxide but people over the age of 65 are more at risk of dying from the effects.

Know How To Stay Safe

Only 1 in 10 homes in the US has a working CO monitor.

- Protect your family by installing 1 monitor per level of your home
- Test the alarm regularly
- Change batteries annually
- Never ignore an alarm – Get outside immediately.

REMINDER

Speed limit on residential streets is 25mph!
